

PZH-100C Automatic Cartoning Machine for Bottle

This product is suitable for the packaging of round and shaped bottles and similar items. It can automatically complete the folding of the manual (1-4 fold), carton opening, packing of goods, printing batch number, sealing, etc. Heating the melt sealing device function. It adopts PLC control, photoelectric monitoring of various parts of the action, abnormality during operation can automatically stop showing the cause, in order to eliminate the fault in time.

Feature:

1. Adopt international famous brand PLC automatic control system and frequency control.
2. Adopt human-machine interface operating system.
3. The main drive has an overload protection device.
4. Fault display, alarm and finished product count.
5. Stable performance and easy replacement of different product specifications.
6. Automatically remove the carton that lacks packaging and instructions.

Technical Data:

Encasing speed	50-100box/min.	
box	Quality requirement	250-350g/m ² (According to its dimension to confirm)
	Dimension range (L x W x H)	(70-180)mm X (35-85)mm X (14-50)mm
Leaflet	Quality requirement	60-70g/m ²
	Unfold leaflet specification	(80-250)mm X (90-170)mm
	Fold range	(1-4) fold
Compressed air	Working pressure	≥0.6Mpa
	Air Consumption	20m ³ /h
Power supply	220V 50Hz	
Motor power	0.75kW	
Machine dimension (L x W x H)	3100 X 1100 X 1550mm	
Machine Weight	1700kg
