

Plastic Bottle Washing Machine

This machine is mainly used in glass bottles and polyester bottles before filling the cleansing, apply to slightly floating dust of one-time polyester bottle and glass bottle to wash the bottle washing machine to clean. Using continuous tracking spray blunt way wash bottles, high efficiency, wash effect is good, is suitable for various specifications of bottle shape, range, convenient operation and maintenance

Product Features

1. Save labor and labor, high production efficiency, low water consumption, simple structure and convenient maintenance.
2. Suitable for the new and old bottle punching control of various bottle materials.
3. Spray the outer wall of the bottle and wash the inner wall at the same time.
4. The surface of liquid contact parts is made of high-quality stainless steel, corrosion resistant and elegant. Fully meet the national health standards.
5. Work efficiency, according to customer needs, can use stepless speed motor, efficiency changes accordingly.

- ◆ Head count of punch bottle: 32 heads
- ◆ Production capacity: 800-1000 bottles /h
- ◆ Water consumption: 1m³/h
- ◆ Motor power: 0.37kw
- ◆ Voltage: 380v
- ◆ Machine weight: 85kg
- ◆ Equipment size: 900*900*1265
