

Automatic Double Sides Labeling Machine

Double Side Labeling Machine is widely used in beverage, food, cosmetic, chemical, electronic, pharmaceutical and other industries. Fully automatic double side sticker labeling machine, suitable for flat bottles, round bottles, square bottles such as flat shampoo bottles, flat lubricant bottles, flat hand sanitizer round bottles, etc. to achieve single or double labeling. Optional date coding device to realize sticker date coding. It is usually combined with Automatic Bottle Filler Machine and Capping Machine to form an automatic production line.

Features:

1. It applies to labeling of various bottles including round bottles, flat bottles, square bottles. More flexible arrangement for manufacturing schedule.
2. The labeling head convenient to adjust, the labeling speed is automatically synchronous with the conveyor belt speed to ensure precise labeling.
3. The speed of conveyor line, the speed of pressure belt and the speed of label output can be set and changed by the PLC human interface.
4. Use famous brand PLC, stepping or servo motor, driver, sensor, etc. good quality components' configuration.

APPLICATION: This machine is widely used in the fields of food, pharmacy and cosmetic. It can stick labels on many kinds of zygomorphic or asymmetrical materials with flat or square shape such as flat shampoo bottles, medicine flat bottles, box and so on.

Technical Parameter:

Labeling Precision	±1mm (excluding product and label error);
Power Supply	AC220V 50/60Hz 1.2KW
Conveyor Speed	5~25 meters/minute;
Labeling Speed	30~150 pcs/min(Related to product, label size);
Sticker Out-Come Speed	5~25 meters/minute
Application Bottle Size	External diameter: Φ25~100mm;
Height	25mm~300mm;
Applicable label size	Label Length: 20mm~200mm;
Label Width(body paper width):	20mm~110mm; 200mm (option)
Inner dia. of paper roll	Φ76mm
External dia. of paper roll	Max. Φ300mm
30Size (LxWxH)	2100mm×1400mm×1580mm
Weight	480kgs
