

## ***Blister Packing Machine DPP115***

DPP-115 type multifunctional automatic aluminum-plastic (aluminum-plastic) blister packaging machine. This machine is an innovative design of our company integrating the advantages of domestic and foreign aluminum-plastic packaging machines. The parts in contact with medicines are made of stainless steel and high-grade aluminum alloy materials. , Suitable for packaging veggie tablets, sugar-coated tablets, capsules in the pharmaceutical, food, and health care industries, as well as ketchup, chocolate sauce, honey, etc.

This machine is the equipment for technical improvement and implementation of GMP production in my country's pharmaceutical packaging. The products have been exported to major pharmaceutical factories and large and medium-sized hospitals at home and abroad, and exported to more than 20 countries and regions, and are favored and praised by customers.

### **Main Feature:**

1. Variable speed control, mechanical traction.
2. The stroke is adjustable, the adjustment range is 30-100mm, the adjustment is convenient, and the synchronization is accurate.
3. The standard is equipped with four stations (forming, heat sealing, indentation, punching), and each station is equipped with four columns, which makes adjustment more convenient and stable operation.
4. Using plate mold (positive pressure forming, heat sealing, and batch number, punching).
5. Equipped with a set of universal aluminum-plastic feeder, its filling rate is as high as 99.5% or more.
6. The machine has the advantages of small size, lightweight, adjustment, and maintenance space.
7. It stands out for its simple operation, high reliability, and compact design. Its main structure is made of stainless steel.
8. Automation by PLC and operation through touch screen control panel.
9. User-friendly.

## Technical Specifications

<b>Product Model</b>	<b>DPP-115</b>
Production Capacity	2400 Plates/h
Cutting Frequency	10-40Times/Min
Max. Forming Area And Depth	80*115*14MM (30MM)
Range Of Standard Stroke	20-70MM Can Be Customized
Standard Plate	80*57MM Can Be Customized
Air Pressure	0.6-0.8Mpa
Mould Cooling	Tap water or Recycling water
Noise	<75dBa
PVC PVC Rigid Sheet	0.15-0.5*80MM
PTP PTP Aluminum Foil	0.02-0.035*80MM
Dialysis Paper	50-100g*80MM
Total Power	380V/220V 50Hz 3.2KW
Main Motor Power	0.75KW
Machine Weight	450Kg
Machine Dimensions	1600*600*1100MM
