

## XHL-WT Automatic Bottle Labelling Machine

This series machine is applying to glass & plastic bottle. In the field of pharmaceutical, pesticide, chemical, foodstuff etc. It is able to auto separating bottle, feeding label stripe, separating label, sticking and auto printing codes. It is equipped with large torque step motor or servo motor and imported photoelectric controlled PLC to ensure the accuracy, stability, reliability and high efficiency.

### Technical Parameters:

Production capacity:	40~200 BPM (Printing:40~160BPM)
Applicable container spec:	labeling length 25~95mm, diameter 12-24mm
Power supply:	220V 50Hz
Dimension(mm):	1500*600*1400
Labeling precision:	±0.5mm(decided by the deviation of bottles and labels)
Label size:	Inner diameter of label reel:76 mm, max diameter of label reel:300mm,Width of label:20~90mm, Length of label:25~80mm
Power consumption:	0.5kw
Weight:	300kg
