

Food / Vitamin Powder / Pharmaceutical / Chemical Mixing Equipment W-1500

This Mixing Machine is suitable for mixing powder and granular materials in pharmaceutical, chemical, food, building materials and other industries.

Features:

The Mixer Machine will powder or granular materials through vacuum transport or artificial feeding into the double cone container, with the continuous rotation of the capacity, the material in the container for complex impact movement, to achieve uniform mixing.

Technical Parameters:

- Model No.: W-1500
- Application: Medicine Processing, Chemicals Processing, Food Processing
- Max. Loading Volume (L): 900 L
- Barrel volume (L): 1500
- Weight (KG): 900KG
- Dimension(L*W*H): 2960*1500*2480mm
