

## Automatic High-speed L-Bar Sealer ZF-A6345+ZF-S550

The automatic high-speed vertical L-Bar sealing machine has great advantages in box-type products. The product sealing line is beautiful and strong. The packaging speed can reach 55 bags per minute. The machine is easy to adjust and easy to operate.

### Features:

1. The whole machine has a CE certificate, and with the stable quality of brand electrical appliances, the machine performance is stable and the failure rate is extremely low.
2. The machine is very convenient to adjust the size of different products, and the touch screen controls the lifting of the tool post, which makes the operation safer.
3. Use multiple laser induction devices to automatically sense the product. When a fault occurs, the sealing knife will not cut the product, which better protects the sealing knife and the product and realizes safe production.
4. The heat shrinkable furnace is a high-efficiency and energy-saving design, simple to operate, and the temperature is automatically controlled within plus or minus 1 degree, which saves 40% of energy compared with other types of heat shrinkable furnaces.

### Specification

Model:	ZF-A6345	ZF-S550
Machine size L*W*H(mm) :	1898*1125*1568	2000*1070*1230
Product size range L*W*H(mm) :	(80-560)*(50-380)*(5-180)	1500*540*350
Power supply:	1P/220V/50HZ/2.5 KW	380V/50HZ/9.6KW
Net weight :	650KG	550KG
