

Ultrasonic Non Woven Fabric Packaging Machine EW-WFB60

It is suitable for automatic packaging of loose, non-viscous, fine granular and powder material in pharmaceutical and chemical products. Such as activated carbon, charcoal, moxa powder, powder heating packs, herbal medicine powder, aromatherapy, spices, foot powder, Halogen package products, etc.

Features

- ▼ Ultrasonic automatic frequency tracking control, more stable performance.
- ▼ The explosive force of ultrasonic wave can be adjusted, and the operation is convenient and simple.
- ▼ High-precision PID adjustment for temperature control, with excellent cold sealing stability.
- ▼ The bag length can be set arbitrarily within the rated range, which is driven by stepper motor. And the bag pulling is stable and reliable.
- ▼ The packing speed can be adjustable.

Parameter

Type	EW-WFB60
Film width	220mm
Bag length	40- 200mm
Bag width	40-150mm
Film roll diameter	Max. 320mm
Packing speed	30-40bag/min
Film material	Cold sealing non-woven fabric
Measuring range	1-500ml (It depends on the material)
Power	220V/ 380V, 60HZ
