

YHAU Automatic Case Erector

Description:

Take on upright storage space cardboard, container board could be brought in at any time, no quit functioning, more time, more packaging.

This structure, style, process: getting carton, opening carton, forming carton, folding bottom, closing base.

Benefits:

1. Enhanced and powerful functions:

Applies to a range sizes of cartons, hands-on adjustment for different carton size and the time required has to do with 1-2minutes once.

2. The Automatic Case Erector could be made use of separators, likewise, can work with the automated packaging line.

Leading product packaging performance in the product packaging field: This machine efficiency is stable, dependable quality, usefulness, high product packaging effectiveness, lengthy life.

High level of automation:

Opening up carton automatically, instantly fold bottom cover, self-sealing the bottom cover with tape, the machine takes on PLC+touch display as well as significantly improve the procedure, crucial part for automated assembly line devices.

Safe and Also Safety Design:

Exact as well as sturdy component efficiency, tight framework style, no resonance throughout procedure, steady as well as reputable procedure; Outfitted with blade guards, to prevent unexpected procedure stabbing, secure production and also efficient packaging.

Parameters:

Speed	10-12 cartons/min
Temporary storage capacity	100 pcs (1000mm)
Carton size	L:200-450 W:150-400 H:100-340mm
Power supply unit	2.5KW 380V 50Hz
Pressed air	0.5-0.7 Mpa
Max air consumption	0.9m ³ /min
Machine size(mm)	L2000 x W1900 x H1450mm
Machine weight	400kg
Tape size	48,60,72mm
