

Custom Juice Pouch Packing Machine XY-60CY

This packing machine is suitable for Liquid and Paste products such as juice, sauce, jam, oil, shampoo, honey, ketchup, butter, mustard, chili sauce etc.

A: Made of stainless steel.

B: Simple structure, simple operation.

C: Stepper motor driven film, set the parameters on the screen.

D: Usually produce pillow bags and it can be with euro hole, linked, easy tearing notched.

E: With a high accuracy pump is good to liquid products for example shampoo, sauce, jam, oil, Ketchup, Pasta etc.

Performance features:

1. The whole machine is made of imported programmable controller, servo motor is super large display and touch screen is a driving control core, the performance is excellent, the operation is simple:
2. The machine and metering device matching can accomplish measuring, feeding, bag filling, date printing and products transporting whole packing process
3. Improve the automatic alarm protection function, the loss to the minimum, to help in time troubles shooting
4. The use of intelligent temperature controller, ensure the sealing is beautiful, smooth
5. The machine can be made according to the customer need to make three side sealing bag type, back seal type bag type.

Matching device:

1. Date printer
2. Fished bag conveyor
3. Punching device make whole on a bag
4. Weight detector

Technical data:

XY-60CY Automatic Liquid Packaging Machine	Packing Speed	30-60 Bags/Min
	Volume	3-150ML
	Bag Width	30-140 MM
	Bag Length	30-180 MM
	Max Width	280 MM
Packaging Film	Thickness	0.04-0.09 MM
	Material	OPP/CPP OPP/PE MST/PE/PET/PE
	Weight	400Kg
Packing Machine	Power Supply	1.9Kw 220V 50Hz
	Dimension LxWxH	900×700×1700mm
