

## *Auto Leakage Checking Machine GF-TU-1*

The GF series are designed to provide years of trouble-free service for the small to mid-sized operation. The movement of bottles through the light inspector is controlled by an automatic advancing system, which simplifies operation and reduces maintenance requirements. The checking action of the bottles is far superior to the manual inspector. The automatic processes are for better economy and maximum efficiency. The great reduces of manual make less production time and less costs to you.
