

Packaging Machine 320/420 VFFS

It is suitable to use in packing the high accuracy and easy fragile material, such as potato chips, crispy rice, snacks, nuts, dates, candy, pistachio, sugar, apple slices, dumpling, chocolate, pet food, small wares, etc.

1. Imported PLC control system with human-machine interface and easy operating visual touch screen.
2. Servo film running system, pneumatic horizontal sealing control, precise positioning, excellent machine performance and nice packaging.
3. Perfect automatic alarm and protection function to minimize the loss.
4. Full packaging process of measuring, feeding, filling, bag forming and date printing in one automatic operation by the machine equipped with measurement device.
5. Bag type: pillow bag, gusset bag and hole-punching bag.
6. Maximize the reliability and intelligence of the whole machine.
