

DGS-1 Double Heads Weighing Machine

It is used in powder, aginomoto chicken powder, salt, rice etc grain product ration packing machine.

Feature:

- the way of filling is shaking
- show resolution ratio is 0.1g
- packing specification \leq weighing range two steelyards in turn filling
- packing specification $>$ weighing range two steelyards collateral filling
- weighing precision has nothing with material weigh
- packing specification is continuous adjustable.
- RS485 computer internet connecting
- the connecting part is made up of 304 stainless steel

Technical parameter:

Weighing range	100-1000g
Packing specification	100-2000kg
Weighing error	$\leq \pm 1g$
Packing speed	32-9bag/min
power supply	220v/50hz
Total power	500w
Weight	180kg
Overall dimension	870*830*2100mm
