ZDA-S8168L Triangle Bag Packing Machine

Able to automatically complete discontinuous running of measure, filling, counting, printing (it is necessary to separately configure coder), merging functions of photoelectric trace and step-less speed regulation into a single whole with finished products as triangle, which is very novel and unique.

This machine is applicable to package in triangle mode of puffed food, prawn cracker, peanut, sugar, popcorn, melon seeds, jelly, white sugar, salt and other granular and sliced food.

Technical parameters:

制袋尺寸(Size Of Bag)	长(L) 40-150mm 宽(W) 30-80mm
计量范围(Range Of Measurment)	10-80毫升(ml)
包装速度(Packing Speed)	35-70袋 / 分(bag/min)
功率(Power)	2.3千瓦(kw)
重量(Weight)	340千克(kg)
外型尺寸(Dimension)	900x800x1950mm
