

HDL-160A Grain Vertical Automatic Packaging Machine

Product description:

Suitable for packing puffed food, shrimp, strip, peanut, cooked seeds, rice, seed, monosodium glutamate, popcorn and other grain, strip and flake shaped solid material.

Features:

- 1, The machine is featured with compact structure, durable, logical and Precise.
- 2, It adopts light sensor control system, and is featured with reliable, stable performance.
- 3, Using VVVF, operation much more stable, low noise, with low malfunction.
- 4, It can finish automatically all processes, such as measuring, filling and bag marking.
- 5, With spring pressure knife principle, pneumatic cutting, 5 linking bags more stable.

Specifications:

Type	HDL-160A
Film width	320mm
Bag length	30-200mm
Bag width	50-150mm
Weasuring range	50-500ml
Film roll diameter	Max.300mm
Pakaging rate	30-80bag/min
Power	220v 50/Hz 2.2KW
Packing film thickness	0.04-0.08mm
Machine weight	About 350KG
Packing Meterial	0PP/CPP/OPP/CE,MST/PE/PET/
