

High Quality Snack Food Weighing And Packing Machine WP-MC-series

Detecting function:

1. Detecting function are completed: have open and close door inspection, jam inspection, no-film inspection, no-color inspection etc, all of them can ensure machine operate fluently.
2. It is very convenient to replace the film roller and the color ribbon.

Machine parts:

The main machine parts are well-known brands, such as VGM geared motor, MISUMI linear bearings, ensure the operation stability; And fasteners which will touch food are made of 304 stainless steel, it can not only avoid corroding, but also keep clean.

Machine accuracy:

Packaging machinery parts require a high level of the machining accuracy, fine workmanship, it ensure machine's good quality.

> Specification

Model	WP-MC361003	WP-MC361005	WP-MC461016
Weigher Heads	10 heads	10 heads	10 heads
Max. Single Dump Cap	3~50g	3~200g	10~1000g
Weighing Accuracy	±0.1~0.5g	±0.1~1g	±0.1~1.5g
Maximum Weighing Speed	60WPM	65WPM	70WPM
Volume	300ml	500ml	1600ml
Film Width	140~360mm	140~360mm	140~460mm
Bag Size Range	L: 60~250mm W: 60~170mm	L: 60~250mm W: 60~170mm	L: 60~300mm W: 70~220mm
Maximum Packing Speed	65bags/min	65bags/min	60bags/min
Film Pulling Driven System	servo motor	servo motor	servo motor
Horizontal Sealing Driven System	cylinder	cylinder	cylinder
Voltage	3.8KW/220V/50(60)Hz	3.8KW/220V/50(60)Hz	4.6KW/220V/50(60)Hz
Gas Pression	0.6MPa	0.6MPa	0.6MPa
Gas Consumption	0.4m³/min	0.4m³/min	0.6m³/min
Machine Size(L*W*H)	1306*1059*2002mm	1306*1059*2002mm	1645*1140*2509mm
Machine Weight	530KG	550KG	750KG
