

## GZB-600A Automatic Pillow Packing Machine

Automatic pillow packing machine is suitable for the solid object with regular form. Such as biscuit, bread, sweet, commodities and industrial parts and so on. The bulk cargos are put in a box and form a regular object, then to be packed.

### Structure function:

- 1: Touching controller with person-machine interface, parameter enacted quickly, high speed and high efficiency
- 2: Adopting the tracing technology through photo electricity, with digital input and sealing and cutting position nicely.
- 3: Diagnosing the troublesome and indicating to give an alarm
- 4: Constant-temperature adjusting, brainpower controlling and being suitable for all kinds of packaging materials.
- 5: Controlled by Double frequency conversion, the bag length can be cut with the enacting to finish by one step, saving time and saving film.

### Specification:

Model	ZW-420	ZW-580
Width of film	Max.420mm	Max.580
Width of bag	40-160mm	80-270mm
Height of bag	80-250mm	150-560mm
Height for product	10-80mm	10-90mm
Diameter for roll film	Max 32mm	Max.300mm
Speed for packaging	20-150 bag/min	20-80 bag/min
Dimension(LxWxH)	4000x10600x1800mm	4100x1300x1300mm
Weight	900kg	900kg
