

Automatic VFFS Dry Food (Dry Fruit) Packing Machine YLM-406-2PK

Application:

This packing machine performs integrated operations from in feeding, weighing, bag (pouch) making, filling, packaging to printing.

It's suited for packing dried fruit, dried vegetables, dried milk products, tea, chips, crisps, popcorns, grains, nuts, seeds, beans, coffee beans, raisin, jujube red date, snacks, candies, cookies, biscuit, jelly, dumpling, prepared food, pet food, etc.

Features

- It can make a variety of bag styles, such as pillow bag (flat bag), gusset bag, block bottom bag, etc. depending on features of the material to be packed.
- English language PLC with touch screen interface, easy to operate, working is stable, parameters can be adjusted without stopping the machine.
- It can record data of ten products, so changing for packing different products is easy.
- Servo-drive system is adopted for tracking film, which ensures accurate position.
- Independent temperature control system, accuracy is within $\pm 1^{\circ}\text{C}$.
- It is suitable for various packaging material--any heat sealable laminated film such as Polyester / Poly Paper / Poly Glassine / Poly Polyester / Met / Foil / Poly BOPP / Foil / Poly etc.
- Bag forming, sealing, packing, printing date in one operation.
- Low noise.

Technical Specifications:

Model	YLM-406-2PK
Air consumption	4m ³ /min 6kg/cm ² 0.65Mpa
Packing film width	Max. 520mm
Bag length	80-350mm
Bag width	80-250mm
Max. film roll diameter	360mm
Packing speed	5-70bags/min
Packing thickness	0.04-0.08mm
Packaging capacity	Max. 2000ml
Power supply	220V.50/60Hz.3Kw or customized
Dimension	1430*1200*1700mm(L*W*H)
Machine Net Weight	650kgs
Configuration	10 head combination weighers, Z-type infeed conveyor, Vibrating feeding machine, Supporting Platform, Takeaway conveyor.
