

Vacuum Packing Machine JY-DZQ600L

- It's suitable for vacuum packaging or packaging of filling inert gas in bag after vacuum.
- It adopts no case and double gas nozzle design, which is not limited by vacuum chamber.
- It's suitable for lower vacuum standard but high standard purity of gas filling.
- Such as sealing thick plastic or composite membrane, we can adopt double heating of model JY-DZQ600L/S.
- Special order can expand the length of the sealing to 700mm, 800mm, 1000mm.

Specification:

Model	JY-DZQ600L
Power supply	AC 380V/50HZ
Hot sealing power	500W
Vacuum pump power	750W
Sealing-bar size	L:600mm,700mm,800mm,
	1000mm
	W:8mm,10mm
Size from sealing center to floor	1060mm
Vacuum pump stroke volume	20m ³ /h
Dimension	800×900×1700mm
Weight	240kg
