Inner Drip Coffee Bag Machine KST-F11

Application:

- ◆Specially design only for INNER DRIP COFFEE BAG PACKING.
- ◆It also can be widely applied to RECTANGULAR NYLON TEA BAG PACKING, NON WOVEN COFFEE BAG PACKING as well.

Features:

- ◆Fully ultrasonic sealing, makes the better packaging performance.
- ◆Imported Mitsubishi PLC.
- ◆Special design SLIDE DOSER weighing & feeding system.
- ◆High accuracy reach at ± 0.2 grams/bag.
- ◆Equips with the VIBRATING SYSTEM, avoid the problem of coffee powder "STUCK".
- ◆Weinview HMI, easy operation.

Parameters:

Model	F11
Working Capacity	35~40 bags/min
Driven	Pneumatic
Filling Range	8~15 g
Weight Tolerance	±0.2 g/bag
Feeding System	Slant auger + mixer
Feeding Capacity	3~5 Kg
Film Width	Standard 180 mm (if other film width, pls tell us earlier)
Recommend Bag Size	90*74 mm or customized
Sealing Type	3-side sealing
Sealing method	Full Ultrasonic Sealing
Air Consumption	0.6 MPa, 0.3M ³ /minute
Voltage	220V Single phase 50/60Hz
Power	1.6 Kw
G.W	320 kg
Overall Dimensions	1354 * 780 * 1666 mm
