

Glass Bottle Filling 3in1 Machine HY-series

Description

Washing, filling and sealing/capping three in one machine is an automatic multifunctional unit.

1. It is easy to install, use and maintain the machine.
2. The machine saves space of workshop which leads to the improvement of work place utilization. High degree of automation spares manpower.
3. Direct transmission among different systems accomplishes the three most important parts of production process at one go, which significantly reduces the possibility of second contamination after washing and filling.
4. A single motor drives the three system (washing, filling and sealing/capping) through gear transmission. User can adjust the speed by simple operation.

Specification:

Model	Capacity (b/h)	Water speed (m ³ /h)	Air speed (m ³ /min)	Washing head No.	Filling head No.	Capping head No.	Power (Kw)	Dimension(m)
HY-18-12-5	3000	1		18	12	5	5	3.05*2.2*2.7
HY-24-18-6	5000	1.5	1	24	18	6	5	3.5*2.2*2.7
HY-30-24-8	6000	2.1	1.1	30	24	8	5.4	3.95*2.2*2.7
HY-40-30-8	8000	2.9	1.3	40	30	8	5.4	4.5*2.75*2.7
HY-48-38-8	10000	3.5	1.3	48	36	8	6.4	5.0*3.15*2.7
HY-60-40-8	12000	4.4	2	60	40	8	6.4	5.5*3.75*2.7
