

GFP-24 Full-Automatic Rotate Low Vacuum Liquid Filling Machine

This machine is a automatic liquid filling machine adopt low vacuum. It mainly use for wine, soy, vinegar, seasoning, soup and easy foamy filling theory, filling liquid close the bottle wall, no foamy, make sure liquid level consistence. It can reach broken bottle no filling, no bottle no filling. Cleaning convenient, high speed, few man function, stable performance, long working life.

Technical Parameter:

Machine mode	GFP-18 GFP-24 GFP-32
Capacity	4500 6000 9000b/h
Volume	250-1000ml
Bottle diameter	Φ50-Φ100
Bottle height	200-370mm
Liquid tolerance	±2mm
Total power	1.1kw
Net weight	900kg
Machine mode	2000 (L) ×1600 (W) ×2200(H)mm
