

Fully-Auto L-Type Sealer With Shrink Tunnel – CE-4550A/CHL & CE-4520A

Features:

- The procedure of plastic film packing from feeding, sealing, to shrinking is operated automatically. It fits for automatic production effect.
- The Auto L-type sealer is available for various kinds of films such as OPP, PP, PE, and POF film.
- We can choose vertical photoelectric cell or horizontal photoelectric cell according to size of product.
- Labor cost saving. All you need to do is to load the product onto the in-feed conveyor.
- Energy saving and shorten the working hours.
- Easy adjustment, maintenance and operation.
- Auto scrap film collector helps decreasing cost and beautifies the working environment. The film scrap takes up drum can be taken apart from the collector easily.
- There is no smoke produced when sealing or cutting.

Technical Parameter:

Model	CE-4550A/CHL
Power	220V/240V Single phase
Power consumption	1.5kw
Sealing frame size (LxWxH)	500 x 450 x 120mm
Conveyor speed	0-18m/min
Conveyor size	W=370mm
Working table height	H=800+50mm
Machine size (LxWxH)	1600 x 950 x 1450mm

Model	CE-4520A
Power	220V/240V Single phase
Power consumption	6kw
Tunnel size (LxWxH)	800 x 450 x 200mm
Packaging speed	0-10m/min
Conveyor size (LxW)	1200 x 450mm
Machine size (LxWxH)	1330 x 720 x 1100mm
