

## *Granule Weighing And Packaging Machine*

Automatic granule snack weighing and packaging machine adopts original servo motor control and imported German technology control system. Compared with other products controlled by similar frequency conversion motors or inverters at home and abroad, it is more intelligent, with higher packaging accuracy, wider adjustable range, more precise control, and reject rate Lower and better stability.

### **Feature:**

Packing bag types: stand-up pouch, handbag zipper bag, four-side sealing bag, three-side sealing bag, paper bag, etc.

- Packing bag size: W: 80-200mm
- Filling range: 10-1500g
- Packing speed: 45-60 bags/min (the speed is determined by the product itself and the filling weight)
- Packaging accuracy: average accuracy  $<\pm 1\%$
- Total power: 2.5Kw
- Scope of application: lump materials such as chicken essence, monosodium glutamate, melon seeds, red dates, etc.
- Auxiliary equipment: computer combination weigher, material conveyor, working platform
