

## *Semi Automatic Horizontal Packaging Machine*

Flow wrapping packaging machine/heat shrinking machine has the characteristics of energy saving and high efficiency, stable and reliable performance, simple operation, good shrinking effect, etc. It can be used for independent shrink packaging of any shrink film products, and can be used with confidence.

### **Features:**

1. Servo control system
2. Self failures diagnosis, clear failure display
3. High sensitivity photoelectric eye color tracking, digital input cutting position, which make the sealing and cutting position be more accurate.
4. Temperature is controlled by PID seperately, which will be suitable for all kinds of bags.
5. Position stop function, no adhesive and no waste of film
6. Simple transmission system, reliable working and convenient maintenance
7. All controlled by the software to facilitate the function of restructuring and technological upgrading

**Products specifications:**

<b>Product name</b>	<b>Horizontal Flow Wrapping Machine</b>
Power supply	AC220V 10% 50HZ
Power	2.8Kw
Film width	Max.350mm
Bag length	100~1000mm
Bag width	80-150mm
Product height	Max.80mm
Packing speed	40~150 packages/min
Machine dimension (L*W*H)	3920*850*1320mm
Color	White gray
Weight	480kg
