

OC-250X Horizontal Vegetable Packing Machine

Horizontal packing machine have been widely used in several fields throughout the world, such as food, pharmaceuticals, cosmetics, medical supplies, industrial foods, rubber goods, sundry goods, sporting goods, etc.

Overview:

This type of horizontal packing machine the section where the material contact is stainless steel as the body of machine is optional for complete or partial stainless steel and all out equipments have passed the CE Standard. Embedded sealing, enhanced structure of heat sealing intelligent temperature controller and excellent heat balance make all kinds of packaging materials possible with good performance, low noise, clear cutting pattern and strong salability. Computer controller is the first patent of China; inverter and power switch are all imported with advanced technology. High-sensitivity photoelectric color tracing and digital input of cutting position get more accuracy. Alarming function for specific output; automatic display of packaging speed.

Application:

Apply to packaging various kinds of regular objects like vegetable, biscuits, pies, chocolate, bread, instant noodle, moon-cakes, daily appliances, industrial parts, paper boxes, plates etc.

Specification:

| Model | OC-250X |
|----------------|----------------------|
| Film Width | 250mm |
| Bag Length | 65-190mm/120mm-280mm |
| Bag Width | 30-110mm |
| Packing Speed | 40-230bags/min |
| Machine Weight | 400kg |
