

BG-60A Automatic plastic bottle filling and sealing Machine

The machine uses stainless steel for a variety of shapes plastic bottle, plastic cup as the container of liquid beverage cans, sealing, trimming, automatic temperature control, waste winding, date printing, UV disinfection in one step of the automatic sealing machine is widely used in food and beverage, brewing, medicine and other fields.

Technical Parameters:

Model	BG-60A
SOURCE	AC220V/HZ2.5KW
OUTPUT	3600杯/小时
FILLING ACCURACY	$\leq \pm 1.5\%$
TEMPT	0-400°C
SEAL MATERIAL	PE PP PET/PE
DIMENSION	3300*650*1600mm
WEIGHT	750KG
