

## CKDCS-15A/25A/50A Grains Bags Weighing Filling Sealing Machine

The rice bag filling sealing machine the function of weighting the material, packing range can be adjusted, heat sealing the bag. The same grains bags filling sealing machine can be used to pack wood pellet, salt, dog food, grains, rice, seeds, fertilizer, sugar, fodder, feed stuffs, corn, beans, etc.

### Introduction and features:

1. This Rice Weighing Packing machine can weigh the material at first, the packing range can be adjusted in the machine. Then the material put into bags. This particles quantitative Packing machine also equipped with a heat sealing machine, so you can seal the bag at the same time.
2. This Quantitative Rice Bag Packing Machine have the CE Certification. High accuracy, high efficiency without crashing the materials
3. This machine adopting double high precision sensor and intelligent meters;

### Technical Data

Model	CKDCS-15A	CKDCS-25A	CKDCS-50A
Packing speed	More than 300 Bags/H	More than 300 Bags/H	More than 300 bags/H
Packing range	5-15kg	10-25kg	25-50kg
Sealing mode	Heat sealing	Heat sealing	Heating Sealing
Dimension	2190*610*710mm	2450*650*750mm	2560*650*750mm
