

## HZGF-510B Tabletop Granule Filling Machine

HZGF-510B Granule filling machine is designed to fill Granule, such as pet food, grains, tea and so on.

### Features:

1. Filling speed and filling volume is easy to adjust by automation control system.
2. When the granule filling machine is working, the feeding of materials is driven by two different vibration frequencies, which can ensure the accuracy, and improve the feeding speed at the same time.
3. The whole body is made of stainless steel, with stable and reliable performance.
4. The machine complies with CE certification.

### Parameter:

Model	HZGK-510B
Voltage	AC220(110V customizable)
Power	60W
Filling Accuracy	±0.2g(Depending on the items)
Hopper	5L
Filling Speed	900bph
Filling volume	2-50g
