

## *SFJ Semi-automatic Powder Filling Machine*

SFJ Semi-automatic Powder Filling Machine is fabricated according to its fine designing. With its advantage of small volume and flexibility, it is one of the best equipment for pharmaceutical, new product developing, researching and laboratory usage. It can be put on the working bench so that to operate and produce conveniently.

### **Features:**

- Micro-processor set the filling dosage;
- Easy operation and stable production;
- Convenient cleaning and sterilizing;
- Easy operation can set the filling dosage at any time.

### **Technical Parameters:**

Model	SFJ
Filling tolerance	≤ 2%-3%
Power supply	220V 50Hz
Dimensions	300x400x600mm
Weight	30Kg
