

Capsule Sorting Polisher

Capsule sorting polisher has the function of sorting. The whole machine is made of stainless steel and quick clamping is used in roller brush so it is easy to remove and clean thoroughly. Motor speed is controlled by inverter, so it can withstand larger starting torque. At the same time, running is balanced and reliable. This product can not only used for polishing and static elimination of capsule pills, but also for automatic removal of low weight, empty shell, debris and body cap separated capsules. Of course, this product is suitable for all models of capsules.

Detailed Specifications

Productivity	6000 pcs/min
Power supply	220V 50HZ
Power	180W
Vacuum dust clearing	2.7m ³ /min 0.014MPa
Compressed air (prepared by buyer)	0.25m ³ /min 0.3MPa
Dimension	1000x600x950mm
Weight	43kg
