

Semi-Auto Capping & Foil Sealing Bi function Machine CS-501

APPLICATIONS:

- Suitable for non-metal containers, Such as glass, or plastic bottles ABS, PE(HDPE, LDPE), PET, PP, PS, PVC etc.
- Suitable for screw caps, tamper-proof caps, etc.
- Suitable for cap outside diameter range 22mm~35mm.
- Special customized cap size acceptable

Features:

- Capping or capping plus sealing are allowed.
- Capping speed and torque is adjustable; power and heating time of foil sealing is adjustable.
- The capping motor adopts brushless DC motor.
- Height of machine is adjustable according to bottle heights.

SPECIFICATIONS:

Power Output	1100W
Input Voltage	220V
Cap Diameter	22mm~35mm
Generator Type	IGBT
Frequency	125 - 250K/HZ
Generator Size	250*200*400/mm
Induction Coil	ø115mm * 70mm
N.W.	38 Kg
