

## *XTHZ600-8S Square Bottle Rotary Way Labeler*

### **Introduction**

- High speed rotary way labeling machine, with 6 heads 8 heads or 12 heads can choose;
- Suit for round bottle labeling wrap around ;
- Suit for square bottle labeling on multi sides with one label;
- Suit for flat bottle labeling on front back two sides.

### **Function Introduction**

#### Labeling engine:

1. Main send label servo motor, use the motion control servo, high performance, high response;
2. Send label motor is the Independent servo motor operation, with the label storage warehouse, label can not broken in high speed ;
3. Collection label motor also the independent servo motor operation, with the angle sensor, smooth collection;

#### Bottle holder:

Depends on client bottle size and shape, design the most suitable press bottle heads and bottle holders, with perfect labeling effect;

## Parameters

Model	XTHZ600-8S
Lock and press bottle heads	8heads
Labeling control system	servo system
Suitable label size	H: 15-150mm, L:20- 300mm
Suitable bottle size	can customized depends on bottle size
Yield (pcs/min)	4000-10000 P/H( can adjustable )
Voltage	110V/220V/380V/50HZ
Machine size	2400×1700×2080mm
