

SA-L Semi Automatic Two Head Linear Weigher

The SA-L Semi Automatic Linear Weighing Machine is an advanced packaging machine designed for precise and efficient packaging in medium-sized businesses. This linear weighing machine ensures accurate weighing and packaging of various products through its high-precision features. The linear weighing machine is reliable across industries like food, chemicals, agriculture, and pharmaceuticals.

- Equipped with a scale for consistent measurements.
- Suitable for low to medium production capacities.
- Made from AISI 304 stainless steel for hygiene compliance.

Technical Specifications:

Width	1430mm
Length	5260mm
Height	3550 mm
Weight	300 kg
Production Speed (Number/Min)	18
Power Consumption	2.5 Kw
Operating Voltage	380V 3 Phase 50Hz
Air Consumption	55 Lt/Dakika - Minute
