

DZQ-900/2SA Double Chamber Deep Vacuum Packing Machine

The DZQ-900/2SA double-chamber vacuum sealer is an advanced and efficient packaging device designed for vacuum sealing food, pharmaceuticals, and other products. It features two independently operated vacuum chambers, allowing users to handle multiple bags simultaneously, significantly improving work efficiency and production capacity.

Product Description

Advantage

- The vacuum sealer machine is made of 96% stainless steel.
- The meat vacuum packing machine features patented technology, allowing the easy transfer of the 900-type vacuum cover to another chamber.
- The double chamber vacuum packing machine can be customized with a vacuum chamber depth of up to 350mm.
- The vacuum sealer machine can be equipped with vacuum pumps ranging from 100 to 400m³; larger m³ indicates greater suction power.
- The industrial vacuum packing machine uses a concave vacuum chamber to effectively address product space issues.
- The vacuum packing machine is controlled by a PCB board.
- The vacuum sealer offers an optional gas flushing feature.
- The meat vacuum packing machine has a plug-in sealing strip for easier replacement of heating wires.
- It includes a separate electrical box for quicker maintenance and inspection.

Technical Parameters

Model	DZQ-900/2SA
Voltage	3phase 220/380V 50-60Hz
Pump Power	4kw
Pump Capacity	200m ³ /h /Option
Sealing Length	900mm (x4)
Sealing Width	10mm
Chamber Size	1000x850x350mm
Dimension	2145x1100x1155mm
Weigth	≈550kgs
Certification	CE ISO
