

## *B-F-30 Sealing Machine*

This B•F-30 sealing machine can automatically feed tubes, orientate eye marks and is used for filling cream (paste)-like and liquid-like materials into plastic tubes or plastic-aluminum laminated tubes and then sealing them, pressing data and product numbers onto the ends of tubes and cutting the ends. This sealer is widely used in daily cosmetics, medicine and food industries. This equipment will accurately dispense products that are water-thin to viscous gels, mascaras to lipstick, shampoos, serums, lotions, and creams.

### **Features of B•F-30 sealer:**

1. This sealing machine uses high efficient heater and heating system formed by high stable flow meter.
2. It has purpose of quick sealing without damaging the package appearance, and the sealing end is nice and neat.

### **Main Technical Parameters:**

<b>Model</b>	<b>B-FN-30</b>
Power Supply	380(220)V/50Hz
Air Source	0.6-0.8MPa
Air Consume	<0.3 m <sup>3</sup> /min
Production Speed	20-30 pcs/min
Dimensions (L×W×H)	1100×790×1500 mm
Weight (kg)	230 kg
