

## Automatic Pill Bag Packing Machine 320C1-P2

### Product description:

1. This automatic pill bag packing machine adopts the most advanced micro computer chip to control. Coordinate with the photoelectric tracking monitoring, it can cut accurately between to bags. It can assemble the coder machine, Gas Entrapment and air inflation equipment.
2. This machine is widely used in medicine, food industries etc. Suitable for wafer, ball shape particle, such as sugar coated tablet, capsule, etc.
3. The bags size is changeable, capsule filling machine could meet the different demand.
4. The sealing effect by capsule filling machine could be 3/4 sides sealing or back sealing or triangle sealing.

### Technical parameters:

Model	320C1-P2
Packing speed	40-80 bags/min
Bag length	30-180mm
Bag width	25-145mm can adjust
Packing capacity	1-100 pieces
Powder	1.8 kw
Weight	250 kg
Size	650 * 850 * 1650 mm
Packing type:	3 sizes
