

## GX-50 Glass Bottle Filling Capping Machine

This machine is suitable for 10-30ml of various materials flat plastic or glass bottles round eye drops filling. The machine consists of a cam indexing mechanism provides precision indexing plate positioned on the plug cover deciles; acceleration provided capping head cam rotation lift; constant torque capping; peristaltic pump metering canned; touch screen control. No bottle no filling, No plug does Capping, with precise positioning, smooth transmission, protective caps, metering accurate, and easy operation.

This equipment complies with GMP requirements.

### Features:

1. Microcomputer set, QTY accurate, easy to operate.
2. Host speed can be infinitely variable speed.
3. Production of automatic quantitative control.
4. Automatic shutdown function, for any one track in a row without filling, no case can be automatically shut down within the plug.

### Technical parameters:

Applicable Standards	2-20ml
Production capacity	80-120 bottles / min
Filling accuracy	$\leq \pm 1\%$
Power supply	380V/50Hz
Rotation (rolling) cap rate	$\geq 99\%$
Auto stopper rate	$\geq 99\%$
Gas source	1.3m <sup>3</sup> / h 0.4-0.8Mpa
Power	2.0 kw
Machine weight	400 kg
Dimensions	2400 * 1100 * 1500mm
