

Feed-in Rotary Table ZP-series

Bottle feed-in turntable is used in a wide variety of bottle packaging or filling production lines. In general, rotary table is connected with the beginning of production line to feed round container into the packing line. The bottle moves along the table edge which could greatly reduce the possibility of bottle jamming.

Parameter:

Model	ZP-800F	ZP-1000F	ZP-1200F
Speed (b/m)	MAX 100	MAX 150	MAX 200
Bottle Diameter (mm)	20-60		40-90
Bottle Height (mm)	60-150		80-240
Power (W)	100 W	150 W	200 W
Weight (KG)	60	80	100
