## Semi-Automatic L-Bar Sealing Machine

The 603 packaging machines are semi-automatic L-Bar sealers that come in a wide range of sizes for all of your packaging needs. The product is fed manually with the film and the operator presses 2 buttons which activates a pneumatic cylinder to push the sealing bar down. An automatic conveyor transports the sealed product into the shrink tunnel which allows the operator to have the next product ready for sealing.

Some of the machine features are:

- Al-Chrome Wire sealing and cutting system for a strong seal and smokeless operation.
- Easy to adjust conveyor belt height.
- Easy to install and operate.
- Custom made machines available for oversized products.

Model 603	Inches	Metric
Product Size (LxWxH)	(3/4"-45 1/4") x (7 7/8"-34 1/4") x (1/8"-13 3/4")	(20-1150) x (200-870) x (2-350)
Max. Film Width	49"	950
Max. Speed (Pieces/min)	8	8
Power (Volt./Ph./Amps)(Kw)	220/ 1/ 18	
Power (Kw)		4
Overall Dimensions LxWxH	112" x 61.6" x 51.6"	2800 x 1200 x 1070
Air requirements	N/A	N/A
