

HHZ-500B Automatic Sleeve Type Shrink Packing Machine

The product is suitable for cartoning and packaging of bulb lamp, LED energy saving lamp, medicine and food industry medicine box, outer box of medicine bottle, food, chemical, cosmetics, beverages and cuff type PE film thermal contraction, the machine has excellent quality, thus, stacking goods, delivery in place, packaging film transport, packaging film sealing, shrinking and others can be automatically finished. And it also can be connected with other equipment for forming production line.

Features:

- Original imported cylinder is used for more balanced and accurate of material pushing and sealing cutting.
- Teflon layer cutter is used, sealing line is firmly and there is no crack, no smoke and no blade sticking.
- SIEMENS PLC, touch screen man-machine interface, electrical components are internationally renowned brands.
- The machine has protective function, this can prevent misuse of packaging and protect operator safety.
- Energy saving, environmental protection and power saving, temperature control system is optimized for stability and accuracy.
- There is stable performance and simple operation, it is easy to understand.

Main technical parameters:

生产能力	Capacity	10-25包/分钟(Packages/min)
包装材料	Packing Materials	0.03-0.1 × 350mm(厚度 × 宽度)PE热收缩膜(PE Shrink Film)
最大包装尺寸	Max Packing Size	300 × 200 × 150mm
电 源	Power	380V/50Hz三相四线 8.5KW
气 压	Air Pressure	0.5-0.7Mpa
收缩速度	Shrinking Speed	0-10m/min
外型尺寸	Overall Dimension	2850 × 900 × 1470mm(长 × 宽 × 高)(不含输送1100mm)
机 重	Weight	400Kg

注：纸盒大小超出范围时，设备需特殊定制 Note: the cassette size beyond the scope, equipment needs to be customized.
