

Round Bottle Labeling Machine RL-60

Round bottle labeling machine can label one cambered surface or a cycle one round bottle surface. Suit for different size round objects in food, medicine, daily chemical and other light industries. Can be used single or be connected to the production line. Use sticky label. High precision.

Features:

- Round bottle labeling machine is widely used in commodity, such as round bottles/cans/jars/tubes...
- Adopt mature PLC control +touch screen control system technology.
- Easy operation with reasonable price.
- Ribbon date printer / collecting turntable is optional.

Spefication:

Machine model	RL-60
Production capacity	30-200 pcs/min
Bottle diameter	Dia. 20-120mm
Label height	5-180mm
Label length	20-300mm
Scoll outer diameter	380mm
Scoll inner diameter	76mm
Rejection rate	< 1%
Motor power	1.5 kW
Weight	200 kg
Dimension	2000x1200x1300(LXWXL)
General power supply	1 Phase, 220V, 50Hz Most Countries
