

APC-B8 Desktop Electronic Counter

Desktop Electronic Counting machine is able to combine with the vial distributing machine, paper stuffing machine, desiccant inserter, cap screwing machine, electromagnetic induction foil-sealing machine and self-adherence labeling machine to form full-automatic high-speed bottled production line. It has been widely used in the industries such as pharmacy, food, chemical engineering, etc., It is fully conforming to GMP certification requirements.

Feature:

- Strong compatibility, Desktop Electronic Counting machine can count and bottle various kind of solid preparation or solid granules for example, tablet (including heteromorphic tablet), capsule, soft capsule (transparent and non-transparent), pill etc.
- Vibration cutting: channel vibration under homogeneous materials, unique patent agencies blanking, turning out material is steady, no damage
- Anti high dust: Adopting the anti-high dust photoelectric sensing technology only developed by our company, it also can work stably under the high dust circumstance.
- Correct counting: With automatic photoelectric sensor counting, the error of bottling is less than nation standard
- Special structure of the discharge spout, can prevent blocking drugs, small bottle can fast bottling (optional)
- High intelligence: Desktop Electronic Counting machine has various alarm and control functions like no bottle no count, check fault automatically and so on.
- Easy operation: Adopting intellectualized design, all kinds of operation data can be set according to the requirement. It can store 10 groups of setting parameters for use.
- Convenient maintenance: After simple training, the worker can operate easily. Desktop Electronic Counting machine is easy to disassembly, clean and change the components without any tools.

- Sealing and dustproof: Dust collection box is available, it can reduce the dust pollution. (Optional)
- Cover an area of an area small, low use cost
- Easy to replace the varieties, remove the clear without any tools, convenient and quick
- Structure compact, no high prices of wearing parts, low maintenance cost

Technical Parameters:

Name	bottle/min Output	Working range	Power supply	Net Dimension	Weight
APC-B8 Desktop Electronic Counting machine	10-30	2-9999	220v/50HZ/0.6KW	1050*700*700	150
