

KD-600 Automatic Heat Shrink Wrapping Machine

Suitable for packaging of multi-pack of individually wrapped products, such as snow cakes, egg pies, French bread and biscuit, etc. This machine has a wide usage and can change products quickly by simple adjustment, etc.

Features:

1. Compact structure, stable function and simple operation.
2. The first third-generation three servo motor control, the bag could be set and cut, unnecessary adjust air without changing film color code tracking one pace reaches the designated position, it is saving time and film.
3. It adopts imported electric appliance, touch main machine interface, convenient parameter setting.
4. Self-checking function, trouble can be read easily. High sensor photoelectric color chart tracking, make the cutting position more correctly.
5. High sensor photoelectric color chart tracking, make the cutting position more correctly.
6. Independent temperature PID controlling suitable for various materials of packaging film.
7. Position stop function, no adhesive and no waste of membrane.
8. Clean rotation system, more reliable operation and more convenient maintenance.
9. All the controlling operates by the software, convenience for function adjustment and technical up grading.

Main Technical Data:

Max.film width	590mm
Max packaging capacity (according to its material to fix)	40-180 times/min
Suitable film thickness	0.03-0.06mm
Length of bags	150-350mm
Packaging width	50-250mm
Packaging height	40-130mm
Total power	4.2Kw 220V
Overall dimensions (L x W x H)	4200 x 1200 x 1700mm
Weight	800KG
