

Liquid Full Automatic Bottle Filling Machine

Widely used in filling various oils and viscous liquids, such as paint, edible oil, honey, cream, paste, sauce, lubricating oil, daily chemicals and other liquid products.

Product Description:

1. Can connect with bottle feeding table, capping and labeling machine, effective cost / space saving
2. It has intuitive and convenient operation, measuring accurate, positioning precision
3. Fully in accordance with the GMP standard production and passed CE certification
4. Siemens Touch screen/PLC+anti explosion pump+Servo motor control
5. No bottle no filling

Technical Parameter:

- Production capacity: 20-120 bottles / min
- Filling head: four, six, eight or ten filling heads (according to capacity)
- Filling range: 10-30ml, 30-500ml, 500ml-2L
- Filling precision: $\pm 1\%$ to 2%
- Capping rate: $\geq 98\%$
- Power supply: 380V 50Hz
- Power: 2kw
- Dimensions: 2500*1270*1550mm
