

## *XH-300B Tree-Dimensional Packaging Machine*

XH-300B three-dimensional packaging machine (box type) is our company in the original XH-300A-based, independent research and development, well-designed, manufactured and introduced a new generation of packaging machinery. The whole structure is reasonable, nice, stable operation, easy adjustment, simple operation, long service life.

XH-300B three-dimensional packaging machine (box type) is mainly used in three-dimensional packaging such as health care products, packaged food, cosmetics, audio-visual products, electrical components. After the native packaging products can be anti-counterfeit, moisture-proof, and improve product level and product quality decoration. XH-200B transparent film three-dimensional packaging machine (box) is an ideal box-type three-dimensional packaging equipment.

### **Technical parameters:**

Packaging speed	40~80 bags/min
Packaging size	(L)240×(W)120×(H)60 mm
Voltage	220V 50HZ
Power	5kw
Machine weight	600Kg
Dimensions	3000×800×1500(mm) (L×W×H)
