

## **ZWS137 Pharmaceutical Machinery High Quality Tablet Deduster**

This machine is suitable for dedusting all type of tablets. It is adapted to all types of tablet machine. With the attachment of deduster and compressed air the dust could be got rid of doing the vibration at the filter.

The part of this machine is made of stainless steel and easy to be cleaned and bear corrosion. It works with low noise and the rotation rate continuously continues adjustable and continuous removal the dust and characteristic.

### **Technical Parameters**

Power of motor	25w
Voltage(v)	220
Diameter of the rotating roller(mm)	137mm
Rotating speed of roller(r/m)	0-75
Overall dimension(mm)	750*320*1030
G.W(kg)	37
