

ZPW23 Rotary tablet press

That machine is the latest High Speed Rotary Press Machine in current industry, which development and innovation basis on board and at home ethnical by our factory; with in high speed and high capacity and used to various normal or abnormality tablets pressing; It's the popular in Pharmaceutical, Chemical, Foodstuff, Plastic Electronic industries.

Features:

1. The machine designed for fully enclosed structure; it has the advantage of good appearance in design, high efficiency, lower energy consumption and etc.
2. The material contact a part is made of stainless steel, the surface of turntable deal with polished to prevent cross pollution which meet the GMP requirements.
3. Its equipped with Plexiglas perspective window for tablet producing observation Eacwoning and maintenance.
4. Driving system is equipped with oil box and running under oil, easy for heat dissipation and durable, non-pollution.
5. It adopts import frequency timing, with hydraulic system.
6. With the Over-loading protection.

Main Technical Parameters:

Die Amount	23 stations
Max.Pressure	80 KN
Max.Filling Depth	17 mm
Max.pressure Diameter	27 mm(Irregular 16)
Max.tablet Thickness	7 mm
RPM	14-30 (r/min)
Working Capactiy	40000-83000 (P/h)
Power supply	3KW380V 50HZ(220V 60HZ)
Overall Dimension	1300 1200 1750 (mm)
Weight	2000 (kg)
