

Vertical Form-Fill-Seal Machine With Linear Weighers RFMV 109

Vertical packaging machines suitable to make bags starting from a flat foil reel, combined with linear weighers. Suitable to pack granular products (short pasta, coffee, rice, legumes, dried fruit, candies, cereals, biscuits, snacks, pet food, detergent, etc.)

Features:

- Optimal combination of mechanical and pneumatic system in the main mechanism of the machine enables perfect result with low energy and air consumption.
- Using Servo in the filling system of the machine enables more precise weights. (Screws will be manufactured for required weights).
- Remote controls such as bag length and adjustment, photocell remote, heat and filling timing, etc. are designed in easily accessible positions the control panel.
- Operating the machine has been eased with PLC system and touch screens.
- Machine has three side stitching system. It also has "GUATRO" packing system if required.
- Compatible with various filling system.
- Simple and user friendly machine.
- Low maintenance and low operating cost.
- Barcode and expiration date print equipment
- Indication of set temperature and actual temperature of sealing surfaces
- Filler options: Auger, Volumetric cup, Liquid pump, Net weight scale

Technical Parameters:		Min	Max
Sachet Dimension	length	60 mm	350 mm
	width	60 mm	220 mm
Filling Capacity		70 gr	1000 gr
Production Capacity (bag/min.)		15-bag/min	40 bag/min
Weight		800 kg	
Electrical Data		5 KW/h 3x380 Volt, three-phased	
Packing Material		Aluminum Foil, OPP+OPP, OPP+PE, Metallised+AL+PE	
Air requirement		5 atu, 50Lt/min	
Dimensions		L270 x W180 xH 270 cm	
Colour	Metallic gray coloured and the surfaces of the machine that are in contact with the product are made of stainless.
