

Horizontal packing machine for confectionery products **DXD-660/560**

This horizontal packing machine for confectionery products DXD-660/560 is suitable for packing products like chocolate, products coated with chocolate, biscuits, wafer, bread, cakes, and others.

Main Features:

- A. Rezipack horizontal packing machine for confectionery products adopts full servo intelligent zed control and runs with low noise, which makes the working condition more comfortable.
- B. The horizontal packing machine for confectionery products is highly automated. It can be connected to production line directly and the processes of feeding, forming, filling and sealing are fully automatic.
- C. The horizontal packing machine for confectionery products makes use of industrial touch screen and human-machine interface. It distinctly shows the parameters and has menu operation, which makes operators easier to use.
- D. The horizontal packing machine for confectionery products is installed with a device for film auto-connection, which ensures smooth packing.
- E. With unique design, the horizontal packing machine for confectionery products makes high speed auto-packing of small-sized products possible.

Main Specifications:

Machine Name	Horizontal Type Chocolate Packing Machine	
Max. Production Capacity	700 bags/min	
Packaging Range	Length of Bag	55-72mm
	Width	15-35mm
	Height	5-20mm
Max. Diameter of Film	Ø300mm	
Max Width of Film	150mm	
Gross Power	7.8Kw	
Power Supply	380V 50Hz	
Gross Weight	1300kg	
Overall Dimension	7150*1000*1700mm	
The parameters are for reference only. Rezipack can design and produce machine according to customers' special needs.
